Peeling off layers of myself

I know it will not last long

Soon I will be newer but older!

It's a courageous process to dare come closer to your centre,

Just like wrinkles it comes with aging.

Somewhere, not too far, I see an unknown landscape.... it's made of pure potential...

'Changing Skin' is a duet created by Lia Haraki and performed by 50 year old Andonis Liveropoulos and 56 year old Soosan Gilson as part of the Act you Age European programme.
