

Circus arts performances in Cyprus

The Alliance Française de Limassol and the French Institute in Cyprus, in collaboration with the Municipality of Limassol, will organize an outdoor circus arts performance in the Molos Square in Limassol on Saturday 24th April starting from **4 PM**. Two French companies will be performing on that occasion: “La Main s’affaire”, a pair of hand-to-hand acrobats, and the “Longshow Company”, offering a contemporary juggling and graphic manipulation show. Both performances will be free of charge.

More information about the two performances:

“All Right!”: acrobatic show by “La Main s’affaire”

A turbulent relationship between two artists: technical harmony but ideological opposition. How to demystify the entertainment and stimulate the critical mindset through breathtaking acrobatic lifts?

Making use of humor, a touch of irony and solid acrobatic skills, the duo aims at showing that there are numerous ways to watch the flow of information that surrounds us.

“Opticirque”: visual illusions show by the “Longshow Company”

In this solo creation, through his own dreams and chimeras, Nicolas Longuechaud draws and shares with the audience the singular story of one circus, his circus. Made from collective memory and inspired by almost true stories, everything mixes up together for the character.

Between circus, cabaret, and fair theatre atmosphere, on the edge between hypnotic and graphic manipulations, new magic, and curiosity sideshow, this show will open up a world of wonder around perception.
